

Multipurpose Grease **diamant**[®]

For ball, friction and roller bearings

Version: 03.09.2025

Areas of Application

Lubricating grease for ball, plain, and roller bearings with excellent creep resistance and corrosion protection.

Examples of use

For lubricating motor vehicles, equipment, machines, conveyor systems, and construction machinery. Use on sliding and friction points, lubrication points, bolts, joints, springs, guides, and Bowden cables.

Properties:

Physiologically harmless

Water-repellent

Walk-resistant

Silicone-free

Natural color

ROHS-compliant

Base oil	Hydrocarbons
Thickener	Lithium
Drop point approx.	190° C
NLGI	2
Temperature range	-25 up to +120° C
Identification	K 2 k-30
